

RECYCLING IT'S AS EASY AS 123

1 COLD LUNCH FOOD WASTE + TRAYS

Empty food waste into the bin liner that is provided in the poly bins with your lunch. Your compostable lunch trays can be stacked in here too!

2 SOFT PLASTIC

Put all soft plastic — empty moogurt pouches and clear film seals into the rubbish bag that is provided.

3 THAT'S IT!

It's as easy as that!
Once you've finished your lunch, simply separate the food and compostable waste from the plastic waste and our BiteLAB recycling heros will do the rest!
